OBJECTIVE

Passionate and detail-oriented Frontend Developer with 20 months of hands-on experience in designing, developing, and maintaining responsive web applications. Proficient in modern frontend technologies including HTML, CSS, JavaScript, React.js, and Bootstrap. Adept at problem-solving, optimizing website performance, and creating user-friendly interfaces. Hackathon winner with a strong drive to contribute technical expertise and creativity to dynamic teams while continuously learning and growing

SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS, Responsive Web Design.
- **Programming:** Java (Data Structures & Algorithms), C++, TypeScript.
- **Other:** WordPress, RESTful APIs, UI Framework.
- **Tools & Platforms:** Git, GitHub, VS Code, Chrome DevTools, Postman (API Testing, Figma (UI/UX Prototyping), ChatGPT.
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Attention to Detail, Time Management.

EXPERIENCE

Vebnox (September 2025 – November 2025)

Web Developer & Designer Intern, Remote

- Assisted in developing both frontend and backend features for client projects.
- Enhanced website functionality and user interface for better user experience.

STP Computer Education and Service (July 2024 – July 2025)

Web Developer Intern, Remote

- Learned and applied industry-standard web development practices in real-time projects.
- Developed hands-on skills in building and maintaining websites, focusing on responsiveness and usability.

Internshala (September 2024 – October 2024)

Web Developer Intern, Remote

- Completed a 2-month structured web development training program covering HTML, CSS, JS, and responsive design.
- Gained practical experience by building small web projects during the training.

Web Developer Intern | Oasis Infobyte (Remote)

- Worked collaboratively on team projects to develop responsive and high-performance web pages.
- Implemented best practices to improve website performance and cross-device compatibility.

PROJECTS

- **Solar System Web Application** (Role: Frontend Designer ; Tools: React.js, CSS Animations)
An interactive web app visualizing the solar system with animated planetary movements and real-time data, providing an engaging and educational experience that combines responsive design, functionality, and visually appealing animations.
- **Gaming Web Application** (Role: Frontend Designer ; Tools: React.js, CSS Animations)
An individual gaming web application that allows users to play games online, track scores, and enjoy interactive gameplay with responsive design and smooth, engaging user experience.
- **Responsive Landing Pages** (Portfolio, Netflix Clone, Coffee Shop, etc.)
Multiple responsive landing pages including portfolio, Netflix clone, and coffee shop websites, showcasing front-end skills, interactive UI designs, cross-device compatibility, and visually appealing layouts following modern web design principles.
- **Video Conferencing Web App** (Role: Frontend Designer ; Tools: React.js, WebRTC)
A real-time video conferencing app with video, audio, and text chat, ensuring secure, scalable, and seamless remote meetings with multi-user streaming, chat functionality, and an intuitive, user-friendly interface.
